QUIET AT CANANEA

Rioting Mexicans Have Now Settled Down.

DANGER CONSIDERED OVER

Only Seven Mexicans and Two Americans Were Killed in the Trouble—The Reports are Greatly Exaggerated.

EL PASO, Texas, June 4.—Senor Malen, Mexican Consul at El Paso, gave the following statements to the Associated Press:

"Only seven Mexicans and two Americans were killed at La Cananea. The Mexican officials are now in absolute control and so quiet is the situation that Governor Ysabel returned to Hermosillo today leaving General Torres and Colonel Kosterlitsky in charge. The Mexican government does not censure Ysabel for taking armed Americans to Mexico as they were not soldiers, and it was time for action. The trouble at Naco between the American and Mexican officers Friday was due to a mistake of somebody and is deplorable, but I am satisfied that is dead. There was no organized attempt as you know of armed men to force themselves into Mexico. I think the incident is closed."

The troops sent from Chihuahua yesterday are still camped in Ciudad Juarez and did not go to La Cananea although they have permission to pass through the United States.

NOGALES, Ariz., June 4.—There is absolutely no truth in the report of renewed trouble at La Cananea. Kosterlitsky is in full control. All was quiet up to late tonight.

FATAL ACCIDENT.

Dory Capsizes Drowning One Woman—Three Others Unconscious.

NEW YORK, June 4.—One young woman was drowned and three others were dragged out of the water unconscious and hurried to the Washington Heights hospital early today as a result of the capsizing of a small dory that had put off from the steam yacht Diana owned by a Dr. Halgren, in the North River, opposite 158th street. The yacht had returned from a trip up the Hudson and was bound for its anchorage down the bay. When off 158th street the yacht was stopped and a boat lowered so that five of the party could be taken ashore. Those who left the yacht were Walter Anderson, Charles Conway, Miss Madge Zaugner, of Bay Ridge, and Miss Bessie Hoop. A man who was the fifth member of the party and the last to climb down into the boat, stepped on the gunwale, upsetting the craft. The crew of the yacht went to the rescue, but Miss Hoop was carried out by the tide and drowned before she could be reached.

The others were dragged to the deck of the yacht and taken to shore. Anderson, Conway and Miss Zaugner were in a very bad condition and were taken in an ambulance to the hospital. It was said at the hospital that Anderson was in a critical condition and that it was feared he would not survive many hours.

HEAVY RAINS IN FRISCO.

SAN FRANCISCO, June 4.—Heavy rain, accompanied by high winds, prevailed here last night, and this weather prevailed throughout the northern portion of the state. It is 22 years, according to the local weather bureau, since a similar condition was experienced at this time of the year. Locally the rainfall yesterday was .20 inches, making the seasonal precipitation 20.37 inches. Comparatively little suffering was caused by the rain throughout the refugee camps. They were forewarned by last week's downpour and were in some measure prepared for it.

ANARCHISTS UNDER BAN OF FEDERAL GOVERNMENT

Suspected Individuals Will Not Be Allowed to Enter

NEW YORK, June 4.—Whether, if England and the continental powers combine to deprive anarchists of any asylum abroad they might find one in this country was answered with an emphatic "No," yesterday. According to Assistant Commissioner of Immigration Joseph Murray, the present laws, if enforced are entirely adequate to keep anarchists out of this country. It is asserted, moreover, that closer watch can be kept on anarchists already here than is the general impression in Europe.

Dispatches from London yesterday suggested a possible crusade against the anarchists of England with the possibility that such action might result in an anarchistic immigration to America. "Any such immigration of anarchists could be checked the minute we learned of it," said Assistant Commissioner Murray yesterday. "The present laws are certainly effective enough to compel the

deportation of anarchists whenever they land in this country."

The general impression that the possession of sufficient money will entitle an anarchist to come into the United States is wrong. No alien is admitted if it appears to the board of inquiry at Ellis Island that he is liable to become a public charge, to become an inmate of public institutions, as an insane asylum, or a prison, or is undesirable generally. An anarchist can, of course, be deported under this provision.

"Moreover, the immigration laws provide that any anarchist can be deported solely because he is an anarchist." Further inquiry at the island brought out the statement that an understanding was not impossible between the Federal Government, England and the continental nations, whereby the police in each country should combine against the anarchists.

RELIGIONISTS MEET IN WINDY CITY

Nearly Every Creed and Dogma Is Represented at the Congress, Which Will Discuss Religious Subjects.

CHICAGO, June 4.—As a preliminary "broadside" of the Congress of Religions, which will begin its annual sessions today at Abraham Lincoln Center, sermons were delivered yesterday in 13 churches in the city and suburbs on the question: "What Is the Greatest Need in Religion Today?"

Among the various denominations represented in the congress are Baptists, Christian, Congregational, Episcopal, Independent, Jewish, Lutheran, Methodist, Presbyterian, Unitarian, United Brethren and Universalists.

Jenkin Lloyd Jones, the general secretary of the congress, made three addresses yesterday. He said, in part:

"The greatest need in religion today is that interpretation that will release it from the trammels of dogma, the lashes of sectarianism, the distractions of denominational rivalries.

"Religion has wasted itself in dreaming, in self-anxiety in preparing for a residence in some far-off land in the beyond. The disillusion of science, the achievements of commerce, the rewards of industry all combine in calling for a practical religion, one that precipitates itself in social service. It is a man-made and a poor religion that is absorbed with an anxious concern for its own future.

"If religion is the major motive, the primary inspiration, it must take on more and more life of the community. Its tests are those of social service, its inspirations are the inspirations that come from a sincere effort to merge the life of the individual in the life of the community; to find one's own joy in the growing joy of all."

CORNER STONE LAID.

NEW YORK, June 4.—The corner stone of the Garibaldi pantheon, which is to commemorate the stay of the Italian liberator at Concord, S. I., was laid yesterday. The corner stone is of marble, but the building is to be largely of brick and will inclose the little 70-year-old frame house in which Garibaldi lived. Thirty Italian societies were present at the ceremonies.

PEACE IN THE HOUSE.

WASHINGTON, June 4.—Peace spread her pinions over the house today, the leader of the minority, John Sharp Williams, of Mississippi, being willing to call off the forces of the opposition now that the report of the conferees had been made on the statehood bill. The house being officially notified of the death of Gorman, passed appropriate resolutions. A committee of seventeen members was appointed to attend the funeral service and as a further mark of respect adjourned until non tomorrow. The message of the President relating to conditions in the packing houses was read and referred to the committee on agriculture.

GIVEN LIGHT SENTENCE.

NEW YORK, June 4.—Bertha Claiche who pleaded guilty of manslaughter in the first degree of killing Emil Gerdron, her master, was today sentenced to not less than two years and two months, nor more than five years imprisonment.

FIGHT AGAINST EIGHTY CENT GAS

Arguments heard in U. S. Circuit Court on Question of Allowing Authorities to Enforce the Gas Law.

NEW YORK, June 4.—The City of New York will be represented today in the arguments which are to be heard before Judge Lacombe in the United States Circuit Court on the question of continuing pending litigation, the order obtained by the Consolidated Gas Company restraining the authorities from enforcing the new 80-cent gas law.

The city's reply to the suit, which is also brought against the state gas commission, the Attorney General and the District Attorney, is a denial of the company's assertion that it is a duly organized company enjoying only valid franchises, and also a denial of the allegation that 80-cent price is confiscatory.

The brief prepared by Corporation Counsel Delaney, which was given out last night, asserts that:

The Consolidated Gas Company of New York is not and never was a corporation as alleged in paragraph 1, and furthermore that the companies alleged in said paragraph to have been consolidated were not at or before said consolidation as alleged, duly organized and existing under the laws of the State of New York, with the property owners and franchisees as alleged in said paragraph. Furthermore, the city goes on to say in its brief, "The Consolidated Gas Company did not become the owner of or entitled to maintain mains, pipes and conduits in the streets and highways of the City of New York and has not laid additional mains, pipes, and conduits with the consent of the municipal authorities."

In support of the city's contention that the Consolidated Gas Company did not possess valid franchises an extract is given of the report of the Stevens investigating commission in which it finds that most, if not all the franchisees of the companies now in the Consolidated, have lapsed.

The principal affidavit in the city's case is made by Engineer William D. Marks, who has been retained by the city for this purpose since January. He says that the aggregate capitalization of the companies in the Consolidated was \$17,000,000, but the Consolidated Gas Company, which absorbed them, divided among them \$30,000,000 of securities and some \$2,000,000 in cash, making a total increase of \$24,000,000.

TRY TO AVERT STRIKE.

SAN FRANCISCO, June 4.—In the effort to avert a strike, and tie up the entire water front, members of the executive committee of the city front federation, and united shipping and transportation association, met in conference today and whatever agreement was reached, if any, will be submitted for ratification to the Sailors' Union. Twenty steam schooners are tied up in this port. The trouble is over the refusal of the association to grant five dollars a month increase in wages.
